

## BATCH MIXING UNIT

TRUCK, TRAILER  
OR SKID MOUNTED

# Cement, Flush and Spacer Mixing Operations

## APPLICATIONS

- Cement batch mixer system to produce homogeneous slurry where accuracy is extremely critical
- Utilized for extreme climates from arctic to desert and tropical conditions

## FEATURES

- Truck, trailer or skid mounted
- Various diesel engine configurations in order to reach the desired HP rating
- Built to European standards (optional)
- CE conformity (optional)
- Dual compartment, slurry displacement tank with open top and hydraulic mixing paddle system
- Closed top slurry tank (optional)
- Coated slurry tanks for acidizing jobs (optional)
- Various tank sizes
- Sloped bottom tanks
- Centrifugal slurry recirculation / discharge pumps
- Eductors for introduction of dry cement and/or dry additives into tanks
- Local control console
- Pneumatic actuated valves
- Pneumatic loading lines
- Density measurement
- Flow measurement (optional)
- Data acquisition system (optional)
- Recirculating /non-recirculating mixing system

*Truck Mounted*

*Control Panel*

*Skid Mounted*
