

MUD PUMPS

DESIGNED FOR
MAXIMUM MOBILITY

GOES

Support Pumping Unit Skid Mounted

Compact Mud Pumps for Workover Operations

APPLICATIONS

- Support of different types of well service interventions and drilling for high pressure pumping or fluid circulation
- Used for high-pressure liquid carbon dioxide pumping, acidizing, cementing operations, pressure testing etc.
- Utilized for extreme climates from arctic to desert and tropical conditions

Two Similar Skids at the Test Stand

FEATURES

- Skid mounted
- Diesel deck engine / various HP ratings
- Various transmissions
- High pressure triplex or quintuplex pumps
- Radiator complete with hydraulic thermostatically controlled fan
- Built to European standards (optional)
- CE conformity (optional)
- DNV certified (optional)
- Remote control for added safety and communication (optional)
- Hydraulic, electric or air start
- Electrical heating system powered by hydraulic generator (optional)
- Engine pre-heaters for extreme conditions
- Over-pressure safety device
- Suction manifold suitable for CO₂ service
- Various pump manifold configurations
- Suction or discharge dampener
- Various options for fuel capacity
- Various sized tanks
